

Rosewood Lane Courtyard

Landscape Design Proposal

Prepared for: Harbourview Developments Ltd.

Attention: Dana Whitfield, Project Manager

Date: March 14, 2026

PROJECT UNDERSTANDING

Harbourview Developments is redeveloping the courtyard at 1180 Rosewood Lane into a shared amenity space for residents. The existing asphalt surface, failing retaining wall and mature cedar hedge along the north property line all need to be addressed.

We understand the goal is a planted courtyard with generous seating, permeable paving, and an irrigation system that can be zoned for the raised planters.

SCOPE OF WORK

- Site inventory and analysis, including an arborist review of the existing cedar hedge.
- Concept design: two planting and hardscape options presented for your selection.
- Design development of the preferred concept, including grading and stormwater notes.
- Construction documentation: layout plan, planting plan, details and specifications.
- Tender support and site review during construction.

DELIVERABLES

- Two concept boards at 1:100 with a planting palette and precedent imagery.
- A dimensioned layout plan, planting plan and grading plan at 1:50.
- A detail set covering the retaining wall, paving edges and planter construction.
- An outline specification and a planting schedule with sizes and quantities.
